"Tandy demonstrated tremendous strength, compassion and unconditional love as the primary caregiver for both of her parents. Providing 24/7 care for both parents simultaneously requires patience, courage and a strong support system. The quality care Tandy's parents received from her and her family extended their lives by several years."
~ Dr. Edouard Mouaikel, MD

"Tandy Elisala is an inspiration and a shining example of how the power of the mind affects healing. As one of Tandy's treating physicians through her last cancer diagnosis, I witnessed her incredible strength and positive attitude. With all of Tandy's life responsibilities during this time, her positive attitude never wavered. I never want to go through what Tandy went through, but if I did, I would look to her as a model for getting through life's challenges."
~ Dr. Todd C. Hobgood, MD
